HOW TO PLAY

- 01 The big board is made of nine small boards. Win three small boards in a row to win the game.
- 02 The square you play in decides where your opponent goes next: play the top-right square of a small board and they must play in the top-right board.
- 03 If that board is already won or full, they may play anywhere. Win a small board by getting three in a row inside it.
